

2,4MW container load bank

About the product

The 2.4MW container load bank is used to test power supplies such as generators or UPS.

They simulate variable electrical load conditions that can be measured and recorded. It can be connected directly to your devices to ensure they will not fail at critical times.

You can monitor loads & report data.

Technical description

Info	Value
Nominal Power	2400kW
Max voltage	230V - 400V Triphased – 50/60Hz
Resolution	1 kW with a remote
Power supplies	HYPRA socket 4-pole 63A External power supply
Ventilation	Horizontal
Security	Security button or Emergency stop
Noise	90DBA WARNING Requires hearing protection

Info	Value
Height	2,561m
Width	2,991m
Depth	2,991m
Weight	4,2T
IP	IP54 (Off) & IP23 (On)
Handling	Lifting rings and metal structure for forklifts
Manufacturing	Made in France
Manufacturing	Resistel

2,4MW container load bank

Product accessories

Cables H07 RNF

- 3 phases
- 1 ground phase

Remote (50m of cable length)
