

200A/48Vcc discharge load bank

About Product

Rentalload rents inductive modules that can be coupled with mobile power resistive load banks (from 100kW to 1MW), enabling loads with a variable power factor to be applied.

Discharge banks (or inductive benches) tests and qualifications of batteries.

Technical Description

Info	Value
Nominal Power	30 à 50 V DC current 10,5 kW
Max voltage	200A Three phase / 48 Vcc
Resolution	0,5V
Steps	9
Power Supplies	50/60Hz
Ventilation	Forced
Security	Emergency stop
Finition	Aluminium
Noise	85 Db

Info	Value
Height	540 mm
Width	490 mm
Depth	280 mm
Weight	25 kg
IP	IP 23
Handling	Wheels
Manufacturing	Made in France
Manufacturing	Cressal

200A/48Vcc discharge load bank

Product accessories

H07RNF cables with crocodile clip and quick connection

Connection

H07RNF cables with crocodile clip and quick connection

Thermal dissipation

Steps of 5/10/20 / 30A
+ wheel for load between 0.5 and 5A
